

## ADDITIONAL INFORMATION FOR SUBMISSION OF DATA REQUEST

### 1. PROJECT DESCRIPTION TO BE PROPOSED

- |             |  |                          |
|-------------|--|--------------------------|
| <b>1.1.</b> | Summary (maximum 150 words): Placing the project in a relevant scientific field, the summary should synthesize what the researcher intends to do. It should highlight the main advantages of the project compared to other research efforts in this area, whether in terms of focus, methodology, or expected results; | <input type="checkbox"/> |
| <b>1.2.</b> | Objectives (maximum 300 words - the goals you want to achieve with the proposed work program must be clear, relevant, and above all feasible in terms of data access, taking into account the time required to transfer data in the project schedule;  | <input type="checkbox"/> |
| <b>1.3.</b> | Description of Requested Data* (include data type, parameters, format, time period, and geographical area) Important: When the requested data must be provided in a non-anonymized format, this circumstance should be expressly mentioned in this section;  | <input type="checkbox"/> |
| <b>1.4.</b> | Description of the Scope and Purpose of Data Usage (the scope of use should be detailed to allow for analysis and evaluation, including the expected results;  | <input type="checkbox"/> |
| <b>1.5.</b> | Description of the Added Value of the Project for SPMS or SNS (maximum 300 words): The description should explicitly outline the potential contributions generated for SPMS/SNS;   | <input type="checkbox"/> |
| <b>1.6.</b> | Information from SPMS to be considered in the data request (if known, specify specific variables and/or system(s) or application(s) they integrate with).  | <input type="checkbox"/> |

**\* In the "Description of Requested Data," please consider the following information:**

- 1.3.1.** *Period (e.g., 2018-2022);*
- 1.3.2.** *Data Aggregation (e.g., daily, weekly, monthly, annual, discharge date, year of hospital admission);*
- 1.3.3.** *Geographical Area (e.g., Mainland Portugal, Northern Region, Hospital Region);*
- 1.3.4.** *Spatial Granularity (e.g., region, district, municipality);*
- 1.3.5.** *Object of study (e.g., cardiovascular diseases, antidepressant medications, hospital admissions);*
- 1.3.6.** *Description of what is sought (e.g., Aggregated information, individual data, primary or additional diagnosis, diagnostic codes);*
- 1.3.7.** *Data Source (e.g., Primary Health Care, National Prescription Database, Hospital Morbidity Database);*
- 1.3.8.** *Variables (e.g., number of medical appointments, medication dispensing, number of hospital admissions, number of emergency room visits).*

Lisbon, April 19, 2024.
